

28 March 1959

MEMORANDUM FOR THE RECORD:

SUBJECT: War Planning in the European Area

On 26 March 1959, [] and I met with Colonel Douglass
to discuss the Colonel's war plans activities in the European Area.
Colonel Douglass is Chief of the Intelligence War Plans Branch of
General Munson's Staff and, as such, is responsible for planning
the intelligence support activities of the CIA force in their active
theater of operations and in various contingency situations short of a
general war. It appears that Colonel Douglass has a better idea of
the problems involved in providing intelligence to []
[] then anybody else I have met in the War Planning activity.
He is anxious to establish a direct correspondence with me as a
channel for advise and assistance in carrying out his planning activities.
